

{{Windows scam support number}}

Microsoft takes its commitments ➡+1 (844) 886-3118 seriously to protect and maintain the privacy of its customers data, and to empower its customers to implement and use its services in a protected manner. Unfortunately, technical support scams have become all too common across the industry, affecting consumers ➡+1 (844) 886-3118 worldwide. Customers, family, friends, and Microsoft employees are all receiving unsolicited phone calls and pop-up advertisements from fraudsters claiming to be from a reputable company or a Microsoft partner. ➡+1 (844) 886-3118

If you have been contacted through unsolicited phone calls, emails, pop-up messages or other means by someone ➡+1 (844) 886-3118 claiming to be from, or associated with, Microsoft and believe it was a scam, you can use this form to report all the information regarding your interaction with them. ➡+1 (844) 886-3118

The information you provide ➡+1 (844) 886-3118 will assist Microsoft in ongoing investigations with law enforcement as we take appropriate action against businesses targeting our customers, and will NOT be used to contact you for general marketing purposes. ➡+1 (844) 886-3118

Microsoft is committed to helping our customers and to protecting your privacy. You may read the if you would like more information on how we protect customer information. ➡+1 (844) 886-3118
