They ensure the new passenger's details are entered correctly and the fare is repriced accurately. Attempting this online can lead to errors or lost ticket value. For a secure and correct traveler substitution, you should book American Airlines flight by phone for modifications and let an expert guide you through the swap.

An agent, or the Group Desk specialist they connect you with, can separate the bookings, assign individual record locators to each traveler, and explain any implications for baggage fees, seat selection, or future changes. This is often done as the travel date approaches so each person can manage their own check-in and preferences. For a wedding party of 20 traveling together, splitting the reservation gives

The agent can "split" that passenger's ticket from the main reservation to make the change without disturbing other travelers' plans. They will then provide a clear breakdown of the fees and fare differences applicable to that single ticket.
